Safety Data Sheet
Date of Issue: 11/03/2022

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier
   Product Form : Mixture
   Product Name : 1002167 Well 1, Well 2

1.2. Relevant identified uses of the substance or mixture and uses advised against
1.2.1. Relevant identified uses
   Use of the substance/mixture : No use is specified.

1.2.2. Uses advised against
   No additional information available

1.3. Details of the supplier of the safety data sheet
   Company
   Inscripta, Inc.
   5764 Pacific Center Blvd
   San Diego, CA 92121
   619-708-8130
   www.inscripta.com
   info@inscripta.com

1.4. Emergency telephone number
   Emergency number : 1-352-323-3500

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture
   Classification According to Regulation (EC) No. 1272/2008 [CLP]
   Flam. Liq. 2 H225
   Eye Irrit. 2 H319
   Carc. 1B H350
   Full text of hazard classes and H-statements : see section 16

2.2. Label elements
   Labelling According to Regulation (EC) No. 1272/2008 [CLP]
   Hazard pictograms (CLP) :

   Signal word (CLP) : Danger
   Hazard statements (CLP) : H225 - Highly flammable liquid and vapour.
                             H319 - Causes serious eye irritation.
                             H350 - May cause cancer.
   Precautionary statements (CLP) : P201 - Obtain special instructions before use.
                                  P202 - Do not handle until all safety precautions have been read and understood.
                                  P210 - Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
                                  P233 - Keep container tightly closed.
                                  P240 - Ground and bond container and receiving equipment.
                                  P241 - Use explosion-proof electrical/ventilating/lighting equipment.
                                  P242 - Use non-sparking tools.
                                  P243 - Take action to prevent static discharges.
                                  P264 - Wash hands, forearms and face thoroughly after handling.
                                  P280 - Wear protective gloves/protective clothing/eye protection/face protection/hearing protection.
                                  P303+P361+P353 - IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water.
                                  P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
                                  P308+P313 - IF exposed or concerned: Get medical advice/attention.
                                  P337+P313 - If eye irritation persists: Get medical advice/attention.
                                  P370+P378 - In case of fire: Use media other than water to extinguish.
                                  P403+P235 - Store in a well-ventilated place. Keep cool.
                                  P405 - Store locked up.
2.3. Other hazards
PBT: not relevant – no registration required
vPvB: not relevant – no registration required
Other hazards not contributing to the classification: Exposure may aggravate pre-existing eye, skin, or respiratory conditions.

SECTION 3: Composition/information on ingredients

3.1. Substances
Not applicable

3.2. Mixtures

Full text of H-statements: see section 16

SECTION 4: First aid measures

4.1. Description of first aid measures
First-aid measures general: Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible).
First-aid measures after inhalation: When symptoms occur: go into open air and ventilate suspected area. Obtain medical attention if breathing difficulty persists.
First-aid measures after skin contact: Immediately drench affected area with water for at least 15 minutes. Immediately remove contaminated clothing. If exposed or concerned: Get medical advice/attention.
First-aid measures after eye contact: Immediately rinse with water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Obtain medical attention if irritation develops or persists.
First-aid measures after ingestion: Rinse mouth. Do NOT induce vomiting. Obtain medical attention.

4.2. Most important symptoms and effects, both acute and delayed
Symptoms/effects: May cause cancer. Causes serious eye irritation.
Symptoms/effects after inhalation: Prolonged exposure may cause irritation.
Symptoms/effects after skin contact: Prolonged exposure may cause skin irritation.
Symptoms/effects after eye contact: Contact causes severe irritation with redness and swelling of the conjunctiva.
Symptoms/effects after ingestion: Ingestion may cause adverse effects.
Chronic symptoms: May cause cancer. Repeated exposure may cause skin dryness or cracking.

4.3. Indication of any immediate medical attention and special treatment needed
If exposed or concerned, get medical advice and attention. If medical advice is needed, have product container or label at hand.

SECTION 5: Firefighting measures

5.1. Extinguishing media
Suitable extinguishing media: Dry chemical powder, alcohol-resistant foam, carbon dioxide (CO2). Water may be ineffective but water should be used to keep fire-exposed container cool.
Unsuitable extinguishing media: Do not use a heavy water stream. A heavy water stream may spread burning liquid.

5.2. Special hazards arising from the substance or mixture
Fire hazard: Highly flammable liquid and vapour. Vapours are heavier than air and may travel considerable distance to an ignition source and flash back to source of vapours.
Explosion hazard: May form flammable or explosive vapour-air mixture.
Reactivity: Reacts violently with strong oxidisers. Increased risk of fire or explosion.

5.3. Advice for firefighters
Precautionary measures fire: Exercise caution when fighting any chemical fire.
Firefighting instructions: Use water spray or fog for cooling exposed containers. In case of major fire and large quantities: Evacuate area. Fight fire remotely due to the risk of explosion.
Protection during firefighting: Do not enter fire area without proper protective equipment, including respiratory protection.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

General measures: Do not get in eyes, on skin, or on clothing. Do not breathe vapor, mist or spray. Keep away from heat, hot surfaces, sparks, open flames, and other ignition sources. No smoking. Use special care to avoid static electric charges.

6.1.1. For non-emergency personnel

Protective equipment: Use appropriate personal protective equipment (PPE).
Emergency procedures: Evacuate unnecessary personnel. Stop leak if safe to do so.

6.1.2. For emergency responders

Protective equipment: Equip cleanup crew with proper protection.
Emergency procedures: Upon arrival at the scene, a first responder is expected to recognize the presence of dangerous goods, protect oneself and the public, secure the area, and call for the assistance of trained personnel as soon as conditions permit. Ventilate area. Eliminate ignition sources.

6.2. Environmental precautions

Prevent entry to sewers and public waters. Avoid release to the environment.

6.3. Methods and material for containment and cleaning up

For containment: Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams. As an immediate precautionary measure, isolate spill or leak area in all directions.

Methods for cleaning up: Clean up spills immediately and dispose of waste safely. Absorb and/or contain spill with inert material. Do not take up in combustible material such as: saw dust or cellulose material. Transfer spilled material to a suitable container for disposal. Use only non-sparking tools. Contact competent authorities after a spill.

6.4. Reference to other sections

See Section 8 for exposure controls and personal protection and Section 13 for disposal considerations.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Additional hazards when processed: Handle empty containers with care because residual vapours are flammable.
Precautions for safe handling: Do not handle until all safety precautions have been read and understood. Obtain special instructions before use. Do not get in eyes, on skin, or on clothing. Do not breathe vapours, mist, spray. Take precautionary measures against static discharge. Use only non-sparking tools. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work.

Hygiene measures: Handle in accordance with good industrial hygiene and safety procedures.

7.2. Conditions for safe storage, including any incompatibilities

Technical measures: Comply with applicable regulations. Take action to prevent static discharges. Ground and bond container and receiving equipment. Use explosion-proof electrical, ventilating, and lighting equipment.
Storage conditions: Store in a dry, cool place. Keep/Store away from direct sunlight, extremely high or low temperatures and incompatible materials. Store locked up/in a secure area. Store in a well-ventilated place. Keep container tightly closed. Keep in fireproof place.

7.3. Specific end use(s)

No use is specified.

SECTION 8: Exposure controls/personal protection

### 8.2 Exposure controls

**Appropriate engineering controls**: Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure. Ensure adequate ventilation, especially in confined areas. Ensure all national/local regulations are observed. Gas detectors should be used when flammable gases or vapors may be released. Proper grounding procedures to avoid static electricity should be followed. Use explosion-proof equipment.

**Materials for protective clothing**: Chemically resistant materials and fabrics. Wear fire/flame resistant/retardant clothing.

**Hand protection**: Wear protective gloves.

**Eye and Face Protection**: Chemical safety goggles.

**Skin and body protection**: Wear suitable protective clothing.

**Respiratory protection**: If exposure limits are exceeded or irritation is experienced, approved respiratory protection should be worn. In case of inadequate ventilation, oxygen deficient atmosphere, or where exposure levels are not known wear approved respiratory protection.

**Other information**: When using, do not eat, drink or smoke.

### SECTION 9: Physical and chemical properties

#### 9.1 Information on basic physical and chemical properties

Melting point: No data available
Freezing point: No data available
Boiling point: No data available
Flash point: No data available
Auto-ignition temperature: No data available
Decomposition temperature: No data available
Flammability (solid, gas): Not applicable
Vapour pressure: No data available
Relative vapour density at 20 °C: No data available
Relative density: No data available
Solubility: No data available
Partition coefficient: n-octanol/water: No data available
Viscosity: No data available
Explosive properties: No data available
Oxidising properties: No data available
Explosive limits: No data available

9.2. Other information
No additional information available

SECTION 10: Stability and reactivity

10.1. Reactivity
Reacts violently with strong oxidisers. Increased risk of fire or explosion.

10.2. Chemical stability
Highly flammable liquid and vapour. May form flammable or explosive vapour-air mixture.

10.3. Possibility of hazardous reactions
Hazardous polymerization will not occur.

10.4. Conditions to avoid
Direct sunlight, extremely high or low temperatures, heat, hot surfaces, sparks, open flames, incompatible materials, and other ignition sources.

10.5. Incompatible materials

10.6. Hazardous decomposition products
Not expected to decompose under ambient conditions.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Acute toxicity: Not classified (Based on available data, the classification criteria are not met)

<table>

</table>

12.2. Persistence and degradability
Persistence and degradability: Not established.

12.3. Bioaccumulative potential
Bioaccumulative potential: Not established.

12.4. Mobility in soil
No additional information available

12.5. Results of PBT and vPvB assessment
PBT: not relevant – no registration required
vPvB: not relevant – no registration required

12.6. Other adverse effects
Other information: Avoid release to the environment.

SECTION 13: Disposal considerations

13.1. Waste treatment methods
Product/Packaging disposal recommendations: Dispose of contents/container in accordance with local, regional, national, and international regulations.
Additional information: Handle empty containers with care because residual vapours are flammable.
Ecology - waste materials: Avoid release to the environment.

SECTION 14: Transport information

The shipping description(s) stated herein were prepared in accordance with certain assumptions at the time the SDS was authored, and can vary based on a number of variables that may or may not have been known at the time the SDS was issued.

14.6. Special precautions for user
No additional information available.

14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code
Not applicable.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

15.1.1. EU-Regulations

The following restrictions are applicable according to Annex XVII of the REACH Regulation (EC) No 1907/2006:

- 3(a) Substances or mixtures fulfilling the criteria for any of the following hazard classes or categories set out in Annex I to Regulation (EC) No 1272/2008: Hazard classes 2.1 to 2.4, 2.6 and 2.7, 2.8 types A and B, 2.9, 2.10, 2.12, 2.13 categories 1 and 2, 2.14 categories 1 and 2, 2.15 types A to F
- 3(b) Substances or mixtures fulfilling the criteria for any of the following hazard classes or categories set out in Annex I to Regulation (EC) No 1272/2008: Hazard classes 3.1 to 3.6, 3.7 adverse effects on sexual function and fertility or on development, 3.8 effects other than narcotic effects, 3.9 and 3.10

- 3(c) Substances or mixtures fulfilling the criteria for any of the following hazard classes or categories set out in Annex I to Regulation (EC) No 1272/2008: Hazard class 4.1

- 40. Substances classified as flammable gases category 1 or 2, flammable liquids categories 1, 2 or 3, flammable solids category 1 or 2, substances and mixtures which, in contact with water, emit flammable gases, category 1, 2 or 3, pyrophoric liquids category 1 or pyrophoric solids category 1, regardless of whether they appear in Part 3 of Annex VI to Regulation (EC) No 1272/2008 or not.

1002167 Well 1, Well 2; Ethyl alcohol

Contains no substance on the REACH candidate list
Contains no REACH Annex XIV substances

Ethyl alcohol (64-17-5)
Listed on the EEC inventory EINECS (European Inventory of Existing Commercial Chemical Substances)

Chloramphenicol (56-75-7)
Listed on the EEC inventory EINECS (European Inventory of Existing Commercial Chemical Substances)

15.1.2. National regulations
No additional information available.

15.2. Chemical safety assessment
No chemical safety assessment has been carried out.

SECTION 16: Other information

Date of Preparation or Latest Revision: 08/02/2021

Data sources: Information and data obtained and used in the authoring of this safety data sheet could come from database subscriptions, official government regulatory body websites, product/ingredient manufacturer or supplier specific information, and/or resources that include substance specific data and classifications according to GHS or their subsequent adoption of GHS.

This information is based on our current knowledge and is intended to describe the product for the purposes of health, safety and environmental requirements only. It should not therefore be construed as guaranteeing any specific property of the product.
SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier
   Product Form : Mixture
   Product Name : 1002167 Well 4

1.2. Relevant identified uses of the substance or mixture and uses advised against
   1.2.1. Relevant identified uses
      Use of the substance/mixture : No use is specified.
   1.2.2. Uses advised against
      No additional information available

1.3. Details of the supplier of the safety data sheet
   Company
   Inscripta, Inc.
   5764 Pacific Center Blvd
   San Diego, CA 92121
   619-708-8130
   www.inscripta.com
   info@inscripta.com

1.4. Emergency telephone number
   Emergency number : 1-352-323-3500

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture
   Classification According to Regulation (EC) No. 1272/2008 [CLP]
   Resp. Sens. 1 H334
   Skin Sens. 1 H317
   Full text of hazard classes and H-statements : see section 16

2.2. Label elements
   Labelling According to Regulation (EC) No. 1272/2008 [CLP]
   Hazard pictograms (CLP) :
   Signal word (CLP) : Danger
   Hazard statements (CLP) : H317 – May cause an allergic skin reaction.
                            H334 – May cause allergy or asthma symptoms or breathing difficulties if inhaled.
   Precautionary statements (CLP) : P261 – Avoid breathing vapors, mist, spray.
                                    P272 – Contaminated work clothing should not be allowed out of the workplace.
                                    P280 – Wear protective gloves/protective clothing/eye protection/face protection/hearing protection.
                                    P284 – Wear respiratory protection.
                                    P302+P352 – IF ON SKIN: Wash with plenty of water.
                                    P304+P340 – IF INHALED: Remove person to fresh air and keep comfortable for breathing.
                                    P321 – Specific treatment (see supplemental first aid instruction on this label).
                                    P333+P313 – If skin irritation or rash occurs: Get medical advice/attention.
                                    P342+P313 – If experiencing respiratory symptoms: Call a POISON CENTER or doctor.
                                    P362+P364 – Take off contaminated clothing and wash it before reuse.
                                    P501 – Dispose of contents/container to hazardous or special waste collection point, in accordance with local, regional, national and/or international regulation.

2.3. Other hazards
   PBT: not relevant – no registration required
   vPvB: not relevant – no registration required
   Other hazards not contributing to the classification
   Exposure may aggravate pre-existing eye, skin, or respiratory conditions.

SECTION 3: Composition/information on ingredients

3.1. Substances
   Not applicable
3.2. Mixtures

<table>
<thead>
<tr>
<th>Name</th>
<th>Product identifier</th>
<th>%</th>
<th>Classification According to Regulation (EC) No. 1272/2008 [CLP]</th>
</tr>
</thead>
</table>

Full text of H-statements: see section 16

SECTION 4: First aid measures

4.1. Description of first aid measures

First-aid measures general: Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible).

First-aid measures after inhalation: When symptoms occur: go into open air and ventilate suspected area. Obtain medical attention if breathing difficulty persists.

First-aid measures after skin contact: Remove contaminated clothing. Drench affected area with water for at least 15 minutes. Obtain medical attention if irritation/rash develops or persists.

First-aid measures after eye contact: Rinse cautiously with water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Obtain medical attention.

First-aid measures after ingestion: Rinse mouth. Do NOT induce vomiting. Obtain medical attention.

4.2. Most important symptoms and effects, both acute and delayed

Symptoms/effects: May cause allergy or asthma symptoms or breathing difficulties if inhaled. Skin sensitisation.

Symptoms/effects after inhalation: Exposure may produce cough, mucous secretions, shortness of breath, chest tightness or other symptoms indicative of an allergic/sensitization reaction.

Symptoms/effects after skin contact: May cause an allergic skin reaction.

Symptoms/effects after eye contact: May cause slight irritation to eyes.

Symptoms/effects after ingestion: Ingestion may cause adverse effects.

Chronic symptoms: May produce an allergic reaction.

4.3. Indication of any immediate medical attention and special treatment needed

If exposed or concerned, get medical advice and attention. If medical advice is needed, have product container or label at hand.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media: Use extinguishing media appropriate for surrounding fire.

Unsuitable extinguishing media: Do not use a heavy water stream. Use of heavy stream of water may spread fire.

5.2. Special hazards arising from the substance or mixture

Fire hazard: Will not support combustion unless the water has evaporated.

Explosion hazard: Product is not explosive.

Reactivity: Hazardous reactions will not occur under normal conditions.

Hazardous decomposition products in case of fire: Carbon oxides (CO, CO₂). Sodium oxides. Nitrogen compounds.

5.3. Advice for firefighters

Precautionary measures fire: Exercise caution when fighting any chemical fire.

Firefighting instructions: Use water spray or fog for cooling exposed containers.

Protection during firefighting: Do not enter fire area without proper protective equipment, including respiratory protection.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

General measures: Do not breathe vapor, mist or spray. Do not get in eyes, on skin, or on clothing.

6.1.1. For non-emergency personnel

Protective equipment: Use appropriate personal protective equipment (PPE).

Emergency procedures: Evacuate unnecessary personnel.

6.1.2. For emergency responders

Protective equipment: Equip clean-up crew with proper protection.

Emergency procedures: Upon arrival at the scene, a first responder is expected to recognize the presence of dangerous goods, protect oneself and the public, secure the area, and call for the assistance of trained personnel as soon as conditions permit. Ventilate area.

6.2. Environmental precautions

Prevent entry to sewers and public waters.
6.3. Methods and material for containment and cleaning up

For containment: Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams.

Methods for cleaning up: Clean up spills immediately and dispose of waste safely. Transfer spilled material to a suitable container for disposal. Contact competent authorities after a spill.

6.4. Reference to other sections

See Section 8 for exposure controls and personal protection and Section 13 for disposal considerations.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Precautions for safe handling: Avoid prolonged contact with eyes, skin and clothing. Avoid breathing vapors, mist, spray. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work.

Hygiene measures: Handle in accordance with good industrial hygiene and safety procedures.

7.2. Conditions for safe storage, including any incompatibilities

Technical measures: Comply with applicable regulations.

Storage conditions: Keep container closed when not in use. Store in a dry, cool place. Keep/Store away from direct sunlight, extremely high or low temperatures and incompatible materials.

Incompatible materials: Oxidizers.

7.3. Specific end use(s)

No use is specified.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

No additional information available

8.2. Exposure controls

Appropriate engineering controls: Suitable eye/body wash equipment should be available in the vicinity of any potential exposure. Ensure adequate ventilation, especially in confined areas. Ensure all national/local regulations are observed.

Materials for protective clothing: Chemically resistant materials and fabrics.

Hand protection: Wear protective gloves.

Eye and Face Protection: Chemical safety goggles.

Skin and body protection: Wear suitable protective clothing.

Respiratory protection: If exposure limits are exceeded or irritation is experienced, approved respiratory protection should be worn. In case of inadequate ventilation, oxygen deficient atmosphere, or where exposure levels are not known wear approved respiratory protection.

Other information: When using, do not eat, drink or smoke.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state: Liquid
Appearance: No data available
Colour: No data available
Odour: No data available
Odour threshold: No data available
pH: No data available
Evaporation rate: No data available
Melting point: No data available
Freezing point: No data available
Boiling point: No data available
Flash point: No data available
Auto-ignition temperature: No data available
Decomposition temperature: No data available
Flammability (solid, gas): Not applicable
Vapour pressure: No data available
Relative vapour density at 20 °C : No data available
Relative density : No data available
Solubility : No data available
Partition coefficient: n-octanol/water : No data available
Viscosity : No data available
Explosive properties : No data available
Oxidising properties : No data available
Explosive limits : No data available

9.2. Other information
No additional information available

SECTION 10: Stability and reactivity

10.1. Reactivity
Hazardous reactions will not occur under normal conditions.

10.2. Chemical stability
Stable under recommended handling and storage conditions (see section 7).

10.3. Possibility of hazardous reactions
Hazardous polymerization will not occur.

10.4. Conditions to avoid
Direct sunlight, extremely high or low temperatures, and incompatible materials.

10.5. Incompatible materials
Oxidizers.

10.6. Hazardous decomposition products
Not expected to decompose under ambient conditions.

SECTION 11: Toxicological information

11.1. Information on toxicological effects
Acute toxicity : Not classified (Based on available data, the classification criteria are not met)
